Hi Mike,

Please see our responses below (with page numbers referring to the document we recently passed back with our edits on Monday 9/21) and the referenced documentation attached. Please let us know if you have any questions.

Thank you,
Tegan

Marc,

I wanted to follow-up on the information OAQPS is going to provide us after our discussion document meeting. If that information could be provided to us by September 30th, we would appreciate it. Please send it to Andrew Lavenburg, Bao Choung, Gaida Mahgoub, and myself.

Thank you.

Subject: EPA OIG Discussion Document Addressing Three Congressional Questions for the OIG Audit: EPA Actions to Address Air Toxics Emissions Through Its Residual Risk and Technology Review Program

Attached is an OIG discussion document on our ongoing audit, EPA Actions to Address Air Toxics Emissions Through Its Residual Risk and Technology Review Program (Project No. OA&E-FY19-0091). This discussion document addresses three Congressional questions. The purpose of this discussion document is to let you know our preliminary observations and recommendations and give you an opportunity to comment on them. This is also an opportunity to discuss additional information you would like us to consider as we develop the draft report.

In accordance with EPA Manual 2750, please provide any comments on the discussion document within 15 days or by September 21, 2020. You may provide comments in writing, orally, or by scheduling a meeting with the OIG. If providing written comments, we ask that those be provided by COB of the above date. If you wish to have a meeting, please contact us at your earliest convenience to schedule a meeting in mid-September. You will still have an opportunity to comment on the draft report, which will take into consideration the comments, suggestions, and information you and/or your staff provide us.

You may share this preliminary discussion document with other EPA officials or staff who have a role in this area; however, you may not share this document with anyone outside the Agency. Further, the material presented in this discussion document has not undergone our OIG internal quality control processes yet and does not necessarily represent the OIG's final position.

We appreciate the cooperation and assistance we received from OAQPS during this audit. If you or your staff have any questions, please contact me at (913) 551-7534 or Andrew Lavenburg at (919) 541-1871.

Thank you.
Renee McGhee-Lenart
